▽ If you subscribe to a DSL service

Please attach a noise filter (contact your DSL provider) to the telephone line between the base unit and the telephone line jack in the event of the following:

- Noise is heard during conversations.
- Caller ID features do not function properly.

Wall Mounting

- To wall-mount your phone follow these steps:
- Install the two self-tapping screws (not supplied) at a distance of 64mm from each other and located on a horizontal line.
 - Place the phone onto the screw-heads and slide down to secure.

Note:

- If one of the handsets drops the conference call, the remaining handsets will continue the conference.

- Press the **[Menu]** key to answer the second caller.
- When you have finished, press the **[Menu]** key to continue with your conversation with the first caller.

Note:

- If you have transferred an external call to another handset, you cannot use the call waiting function via the second handset.
